

Problem Solver.
Pragmatist.
Global (r)evolutionary.

Dr. Nicole

A (r)evolutionary approach for the real world.

As Australia's expert in alcohol and other drug change, Dr Nicole Lee offers a revolutionary approach to implementing leading edge treatments that really works.

A renowned international speaker, author, psychologist and global academic, Dr Nicole confronts controversies head on and delivers groundbreaking and authoritative advice about alcohol and other drugs in a relevant and highly entertaining way.

Her pragmatic approach, engaging presentation style and ability to simplify academic jargon into real world advice has seen Dr Nicole deliver 2000 top rated talks to over 40,000 global leaders spanning every industry.

Dr Nicole's unique mix of clinical practice, research and leadership experience over nearly three decades results in policies, processes and practices that are easy to implement and, most importantly, sustain.

“Nicole is so knowledgeable and experienced, has great teaching skills and is very easy to listen to!

”

In the media.

Dubbed the "Ice Queen" by Australian media, Dr Nicole is a regular feature in leading mainstream media including Weekend Sunrise, SBS Insight, Nightly News and Current Affairs.

As Australia's Breaking Bad academic, Dr Nicole tells the truth about what is needed to revolutionise the local and global response to the alcohol and other drug crisis.

Dr Nicole uses a TED-style approach and her unique 360Edge speaking methodology to customise her talks. She provides a global 360perspective on the latest evidence based practices so audiences learn what will work for them. She uses her E.D.G.E method to close the gap between what leaders know and do. The E.D.G.E is embodied in every single talk:

Engaging delivery
Deepened thinking
Generation of new strategies
Easy to execute next steps

“Nicole is such an engaging speaker and extremely informative. It was info I can really use in my work!”

Nicole's most requested conference keynotes and event presentations:

Breaking the ice.

What we know about crystal meth and what to do about it

The problem is not always the problem. Talk of an ice epidemic is distracting us from the real problems and how to solve them. You can't believe everything you see in the media. The evidence is clear. Find out what it tells us and how we should respond.

The tip of the iceberg.

What did the ice crisis teach us about drugs and drug policy

The problem is not always the problem. Talk of an ice epidemic is distracting us from the real problems and how to solve them. You can't believe everything you see in the media. The evidence is clear. Find out what it tells us and how we should respond.

Why drug testing isn't enough.

Alcohol and other drug policy in the workplace

Drug use is linked to workplace accidents, reduced productivity, poor work relations, absenteeism and presenteeism. Drug testing doesn't solve any of these problems. Find out what is effective in creating a healthy safe workplace unaffected by drug use.

“
Nicole really knows her stuff -
I would have loved to listen
longer!
”

Leading the (r)evolution.

Founder and Director at 360Edge, Dr Nicole is known globally for making drug and alcohol policy work in the real world.

Passionate about helping leaders make a lasting difference, Dr Nicole cuts through controversies to find what works.

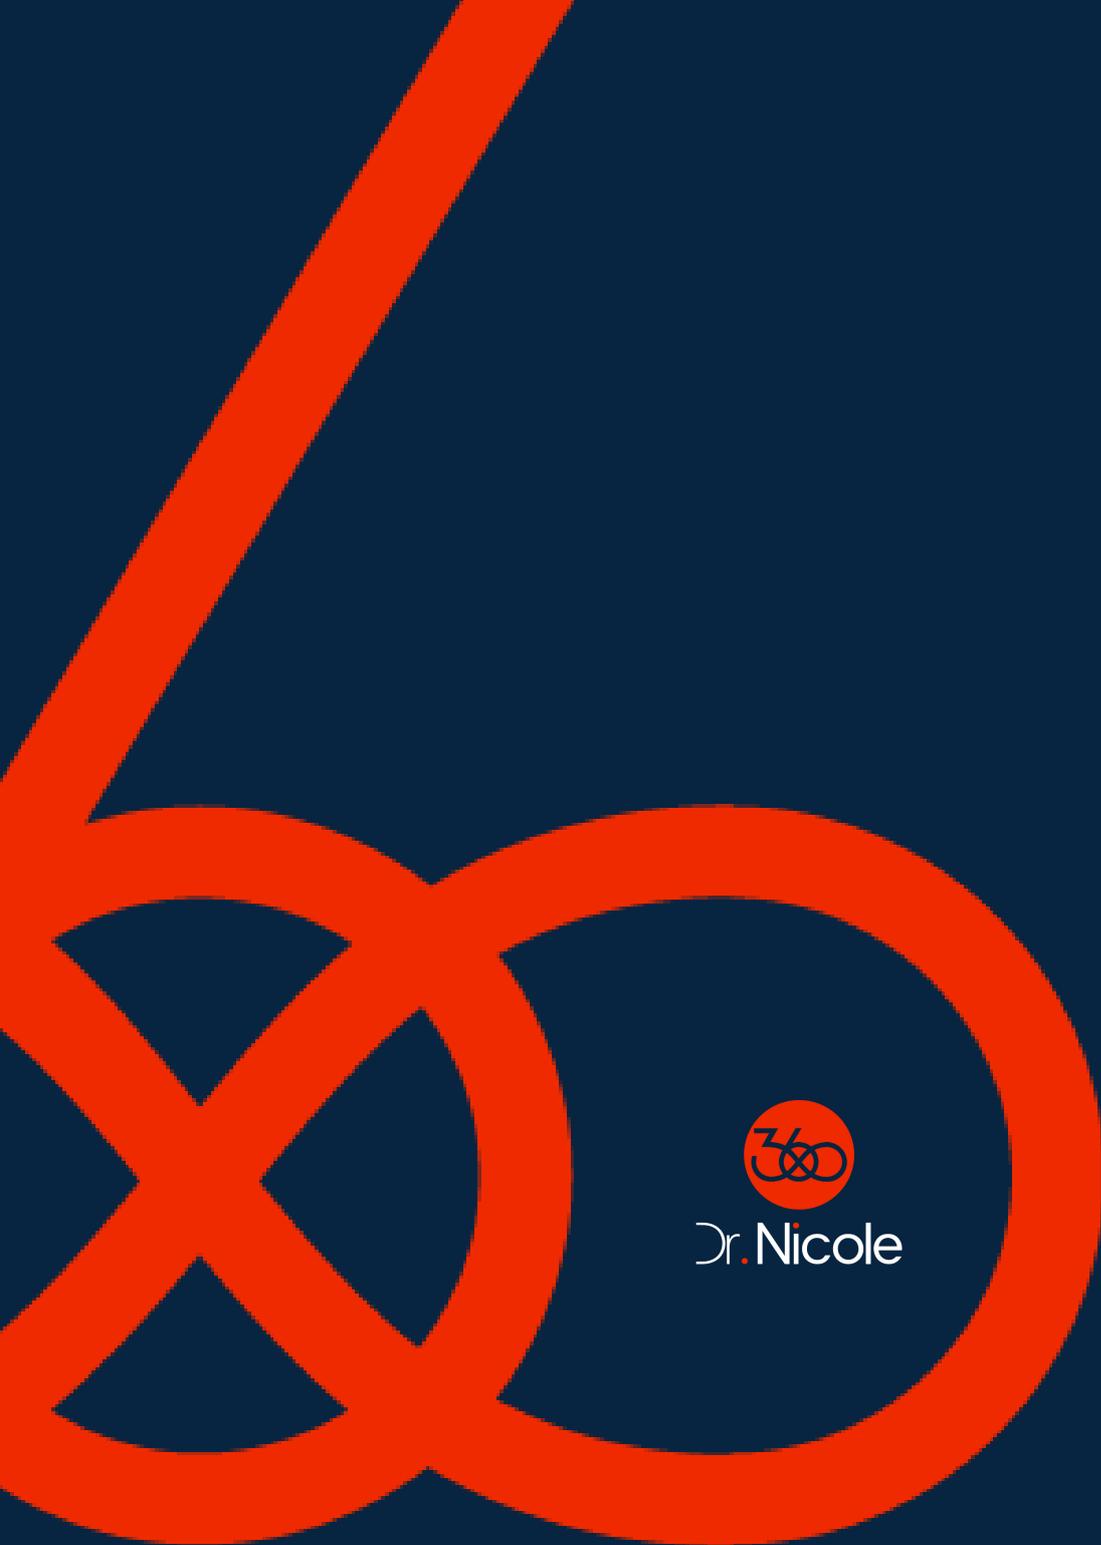

Nicole is Adjunct Professor at Australia's National Drug Research Institute and a member of the Australian National Advisory Council on Alcohol and other Drugs.

She has raised the bar for the United Nations Office on Drugs and Crime, the World Health Organisation, state and federal politicians, national drug taskforces, state and commonwealth agencies, and private and not-for-profit services. Over 500 global organisations are more agile because of her practical advice.

Whether you're looking for a speaker at your next event, needing a strategic facilitator, or wanting to accelerate change in your organisation, Dr Nicole will work with you full circle.

“ Nicole is a strategic thinker... her strong academic track record is a perfect fit with her focus on evidence based policy. Organisations looking to improve their performance or keep up with the latest alcohol and drug issues will derive ongoing benefit from engaging Nicole. ”
